## HP Education Services

In today's technology-powered world, you depend on IT to fuel and drive your business. If the IT infrastructure is weak or processes are inefficient, your company is less productive and therefore less profitable. Conversely, the more effective IT is, the more competitive and successful your organisation can be. This dramatic shift in the way we view IT is known as business technology – technology that powers the business.

In this environment, not only is the technology important, but so are knowledgeable people who can implement and manage it – skilled technical professionals who are able to maintain a new infrastructure and adapt it for the future.

### Education = Skills = Success

Your IT staff, no matter how capable, need quality training when it comes to new hardware, software, operating systems, applications and processes. Your end users also need to understand how to use new applications without frustration and wasted productivity.

When it comes to technology, who better to trust than HP? When it comes to education, HP Education Services have over 30 years' experience in helping technical professionals and organisations worldwide achieve tangible business results.

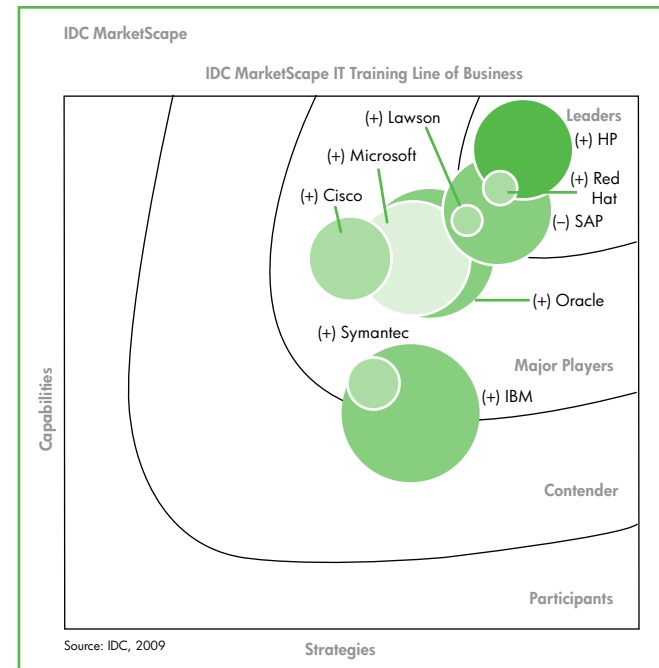

HP Education Services provide training on the topics your staff need to improve efficiency. We also adapt new technologies for the classroom so you can enjoy modern and convenient delivery methods – like virtual rooms and labs, Remotely Assisted Instructional Learning (RAIL), web-based training and exciting simulations – as well as traditional classroom methods.

HP is listed in the Top 20 Training Companies by Trainingindustry.com

## Leader in Training Sector

### HPES proves to be a promising option even during an economic downturn

The IDC MarketScape vendor analysis model for the IT training LOB is designed to provide an overview of the competitive fitness of technology vendors in a given market. HP is an IDC MarketScape leader for IT education. HP offers training on all of its appropriate products and many of the products for its strategic partners. Vendor year-over-year growth rate relative to the given market is indicated by a plus, neutral or minus icon next to the vendor name.

Additional Notes: The IDC MarketScape vendor analysis model for the IT training LOB is designed to provide an overview of the competitive fitness of technology vendors in a given market. The research methodology utilises a rigorous scoring methodology based on both qualitative and quantitative criteria that result in a single graphical illustration of each vendor's position within a given market. The capabilities score measures vendor product, go to market and business execution in the short term. The strategies score measures alignment of vendor strategies with customer requirements in three- to five-year time frame. Vendor market share is represented by the size of the circles. Vendor year-over-year growth rate relative to the given market is indicated by a plus, neutral or minus icon next to the vendor name.

Source: IDC MarketScape: 'Worldwide IT Education and Training, 2010 Vendor Analysis', by Cushing Anderson, IDC no. 221486, January 2010.

## HP Education Services – EMEA launches Interactive/Online Catalogue

The HPES customers can now access an interactive and most updated version of the new HPES digital catalogue on the HP Education Services Website. The interactive catalogue would enable an HPES customer to access and download the latest updates on the HPES portfolios, share and print the latest updates, easily browse through the catalogue pages.

## Why HP?

- **Have your team receive their training with NO TRAVEL!** RAIL is live, online training with hands-on labs. You get all the benefits of being in a class without having to leave the office.\* If you have a group to train, consider a custom onsite – we will come to you.
- **Customised solutions** – Buy exactly what you need – we can tailor our education programmes to meet your business and learning needs. And offer strategic consulting and planning to help you maximise return on your people and infrastructure investments.
- **Flexible purchase options** – In addition to buying by the course, you can attach training to your hardware purchase with HP Care Pack Services or add training to a support contract. These are convenient ways to set aside and protect your training budget for use when you need it.
- **Training experience** – Maximise your HP technology investments with HP Education Services, bringing you over 30 years as a world leader in customer training.
- **HP product expertise** – Learn the depth of technology capabilities from the people who develop and engineer the products your business relies on.
- **Service management leadership** – HP Education professionals are among the foremost authorities in ITIL, project management and business analysis – and are contributing authors to ITIL V3.
- **Industry-leading partnerships** – Get the greatest return on your complete technology investment from our comprehensive training portfolio with industry partners such as Microsoft, VMware and more.
- **Holistic approach** – Apply the combined power of people, processes and technology to run IT like business.
- **Desktop to data centre expertise** – Simplify your training needs with one vendor who offers courses that span the whole of your IT infrastructure.

\*Not yet available in all countries for all courses.

### HP Learning Solutions

HP Learning Solutions are designed according to your needs, culture and environment. We select the right mix of methods and tools to maximise learning success and ensure the improvement of your staff's performance. Focusing on the 'people factor' in IT, HP complements formal training with additional activities such as on-the job support, Learning Management Systems and Electronic Performance Support Systems. HP Learning Solutions provide education services for employees, managers and technical staff in Microsoft Technologies, IT applications and topics like processes or compliance. HP can help you increase user awareness, and ease the transition and acceptance of new technology without losing productivity, and increase the ROI of your IT projects.

[www.hp.com/learn/customsolutions](http://www.hp.com/learn/customsolutions)

### HP Service Management

HP offers Business Analysis (based on BABOK), Project mgmt (based on PMBOK) and ITIL® courses that equip IT professionals and management with knowledge and skills to help you transform and optimise your IT into an effective supplier of business and customer focused services. Learn how to identify business needs, run projects and implement or improve your ITIL processes. HP offers standard courses that can be customised. We deliver hands-on (experiential) learning with our Service Management Project management and Data Center Simulation, which demonstrates the impact that lack of processes can have on a business. To view the complete and extended HP Service Management curriculums for ITIL, PM and BA, please visit:

## HP Technical Training

HP trains more than 160,000 students a year to achieve peak performance with HP solutions. We offer a comprehensive portfolio of courses delivered through a variety of media, as well as a wide range of certification tracks and e-services. HP education experts will also customise standard course content based on your timelines, desired level of detail, medium and local language. Content areas include:

- Storage and Storage Area Networks (SANs)
- HP-UX, HP NonStop, OpenVMS, Linux and Windows
- HP Insight Control for HP ProLiant and HP BladeSystem
- Data Center Facilities training, including courses which help clients render their Data Centers become more Energy Efficient and reduce their Operational Risks.
- HP Networking Certified Professionals

HP Certified Professionals continue to be recognised worldwide as technology leaders. Our certifications range from presales to system administration and validate the technical and sales expertise needed for HP technology solutions. The Continuous Learning Initiative enables HP Certified Professionals to maintain their technical advantage in an ever-changing business environment.

[www.hp.com/learn/certification](http://www.hp.com/learn/certification)

## HP Data Center

HP offers a wide range of courses to help you better manage and operate both the 'IT' and 'Facilities' elements of your Data Center.

For example, our Energy and Environmental Efficiency course helps reduce what is typically the largest cost element in a Data Center: energy usage. Our Data Center for Managers course helps Data Center Managers/Supervisors/Senior staff better manage the IT, Facilities and Human Resources elements of your Data Center operation. Our Optimised Data Center Simulation course allows you to experience the business benefits that increased collaboration and process integration between 'Facilities' and 'IT' can bring your DC operations. Finally, our Data Center Training Symposium will show you how our full suite of HP training offerings can help you solve your critical Data Center operational issues – by assuring that People, Process and Technology are aligned within your Data Center.

## Hot Topics and New Courses

### HP BladeSystem Matrix Training

We are pleased to provide full and comprehensive training to support HP's BladeSystem Matrix solution, either for HP ProLiant or HP Integrity customers. Whether your HP Matrix training needs include classes for ProLiant or Integrity Blades, Insight Control and/or Insight Dynamics, Virtual Connect, Boot from SAN or Enterprise Virtual Arrays, HP Education Services has you covered.

[www.hp.dk/uddannelse/proliant](http://www.hp.dk/uddannelse/proliant)

ProLiant Matrix curriculum:

[www.hp.com/learn/proliantBladeSystemMatrix](http://www.hp.com/learn/proliantBladeSystemMatrix)

Integrity Matrix curriculum:

[www.hp.com/learn/integrityBladeSystemMatrix](http://www.hp.com/learn/integrityBladeSystemMatrix)

### VMware

#### VMware vSphere [v4] training

HP is pleased to provide VMware vSphere [4] training within our VMware portfolio. VMware vSphere transforms data centres into dramatically simplified cloud infrastructures to enable the next generation of flexible and reliable IT services. HP offers the full complement of VMware vSphere [v4] training classes. Whether you are new to VMware or a current VMware Certified Professional (VCP), we have classes to suit you.

#### VMware View [v4]

HP also offers a full (and current) suite of VMware's 'View' courses. HP can shorten your time to Client Virtualization success by helping ensure your staff is fully skilled on and proficient with VMware's View product suite – including VMware View Manager, VMware View Composer and VMware ThinApp.

[www.hp.dk/uddannelse/vsphere](http://www.hp.dk/uddannelse/vsphere)

## HP StorageWorks

HP Education Services provide training on storage networking and disk storage systems, to enable customers to optimise their HP storage investment. HP's Storage networking courses teach the key aspects of SAN architectures and the HP

technologies implemented in typical business environments. Our courses help students understand the configuration and management of the Enterprise Virtual Array, XP Array and HP LeftHand SANs. Advanced courses offer in-depth training on Business Continuity and Availability technologies for HP disk storage systems.

[www.hp.dk/uddannelse/storage](http://www.hp.dk/uddannelse/storage)

## HP-UX Virtualization Tools Boot Camp (HF869S)

This hands-on course (HF869S) supports the new VSE Operating Environment on HP-UX 11i v3. It gives a product overview and shows how to use Systems Insight Manager (HP SIM), Virtualization Manager, Capacity Advisor, Global Workload Manager, Instant Capacity, Application Discovery, Partition Manager, VM Manager, Process Resource Manager, and Secure Resource Partitions.

## HP Networking

HP Networking is one of the world's leading network vendors, helping customers adapt to today's network environment by supplying the best available products, solutions and support. But in order to achieve the highest possible ROI, your people need to know to use HP Networking solutions effectively, to understand how the technology integrates with existing equipment and processes, how to align it with business objectives and, where necessary, to troubleshoot. Our HP Networking training offers a series of courses and programmes specifically designed to give the best possible understanding of the solutions' capabilities.

Your direct benefits include:

- Ability to adapt to changes in network IT environments
- Control and flexibility for mobile and remote network users
- Compliance with legal and regulatory requirements
- Better security throughout your network infrastructure
- Higher levels of network and application availability

## HP Education Services offers RedHat Courses

HPES has entered into a strategic relationship with RedHat to provide RedHat training courses. Please visit the HPES RedHat page for more information on the course structure and bookings.

[www.hp.com/learn](http://www.hp.com/learn)

## HP-UX Curriculum Paths

### Core HP-UX and HP-UX Transition Training

If you are new to UNIX®, our UNIX Fundamentals and HP-UX System and Network Administration I and II courses will give you a solid foundation to begin your HP-UX career. If you are an Experienced UNIX or HP-UX Administrator, jump start your HP-UX career by attending one of our accelerated Experienced UNIX or HP-UX System and Network Administration courses.

### Hardware and Partition Training

Once you have mastered the core components of HP-UX, you are ready to start looking at techniques for partitioning your server through nPar, vPar or virtual machines options or alternatively studying the HP Integrity Blade Server solutions.

### High Availability, Security, Performance and Virtualization Management Training

The final step in your HP-UX training is to master the more advanced topics such as security, troubleshooting, performance, virtualisation tools and high availability. For these topics, HP Education offers a wide range of classes which all include extensive hands-on lab sessions for you to consolidate what you have learned on your journey from novice to HP-UX expert. The HP-UX Virtualization Tools Boot Camp will help you better manage your systems and workloads, utilising the existing tools in your environment.

For full course selection and course schedules, please visit [www.hp.dk/uddannelse/unix](http://www.hp.dk/uddannelse/unix)

## HP ProLiant Curriculum Paths

The HP ProLiant curriculum provides the most efficient and effective way to instal, manage and maintain both HP ProLiant and HP BladeSystem servers, as well as HP Blade Workstations, and is an integral component of HP's Virtualization Training offerings.

[www.hp.dk/uddannelse/proliant](http://www.hp.dk/uddannelse/proliant)

ProLiant Matrix curriculum:

[www.hp.com/learn/proliantBladeSystemMatrix](http://www.hp.com/learn/proliantBladeSystemMatrix)

Integrity Matrix curriculum:

[www.hp.com/learn/integrityBladeSystemMatrix](http://www.hp.com/learn/integrityBladeSystemMatrix)

## HP BladeSystem

Start with our Introduction to HP BladeSystem, and follow up with the HP BladeSystem Installation and Configuration class, which provides hands-on installation and initial setup experience with a variety of HP c-Class BladeSystem hardware. Or jump straight into the HP BladeSystem Administration training and learn how to manage already deployed HP BladeSystem components. Follow up with HP Virtual Connect training to cover the integration and use of virtual connect (VC) Ethernet, Flex Fabric and fibre channel technology.

Our Virtual Connect training is now available in 'Interactive Distance Learning' format, allowing your people to complete this course at their own pace at their convenience, 24x7.

## HP Insight Control

Insight Control management software delivers total control, enhanced flexibility and tangible savings for your HP ProLiant infrastructure. Our robust Insight Control curriculum enables you to maximise your benefit from this powerful SW suite.

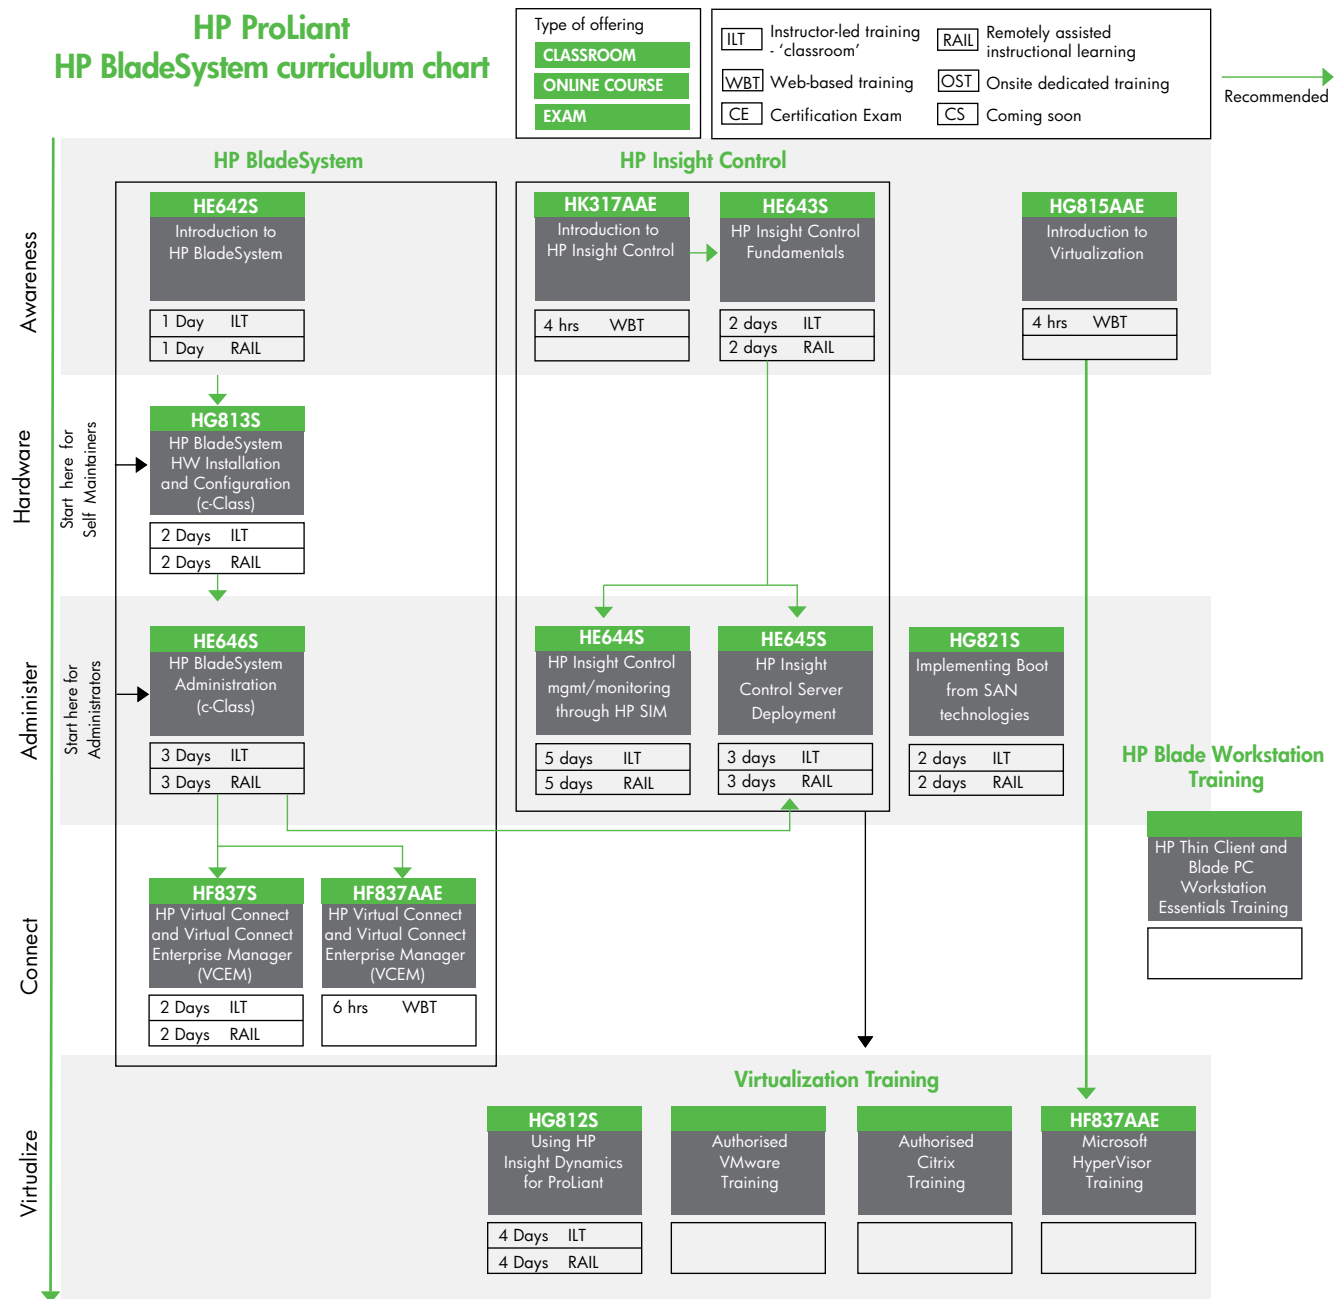

## HP Blade Workstations

HP's training offerings enable you to utilise HP's Thin Client, Blade Workstations and supporting SW to the fullest! Let our courses help you slash your time to productivity on these important technologies – and help you achieve business results faster from these technologies.

## Virtualization Training

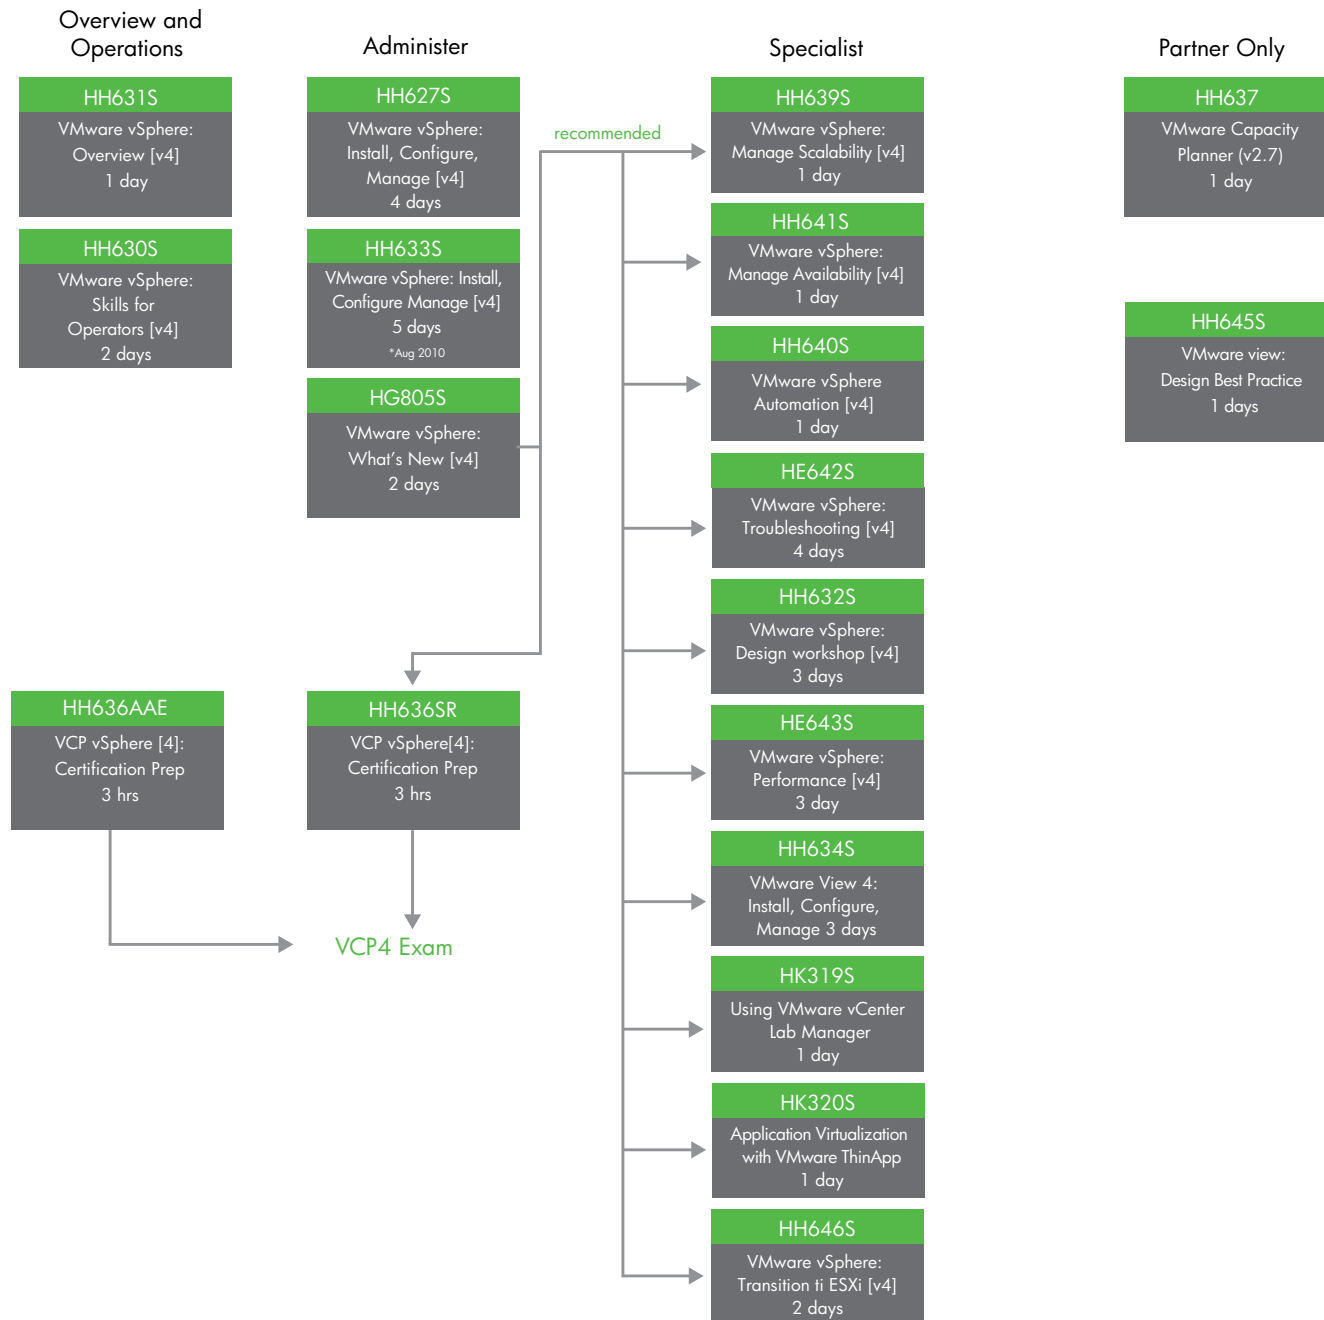

Our education services leverage HP proprietary technologies and partnerships with key players in the virtualisation market to offer instruction and course materials from the very experts that create, manage and enhance these technologies.

## HP ProLiant HP BladeSystem curriculum chart

For full course selection and course schedules, please visit [www.hp.dk/uddannelse/proliant](http://www.hp.dk/uddannelse/proliant)

## VMware vSphere [4]: Curriculum chart

Customers can be confident that the quality and value of the VMware training delivered by HP will prepare them for the VMware Certified Professional (VCP4) certification. We offer a full complement of VMware training, starting at the beginning with our Overview and Operations classes, which provide an introduction to the features of the vSphere Infrastructure and day-to-day management for deployments, leading on to more specialist courses, and to those courses that lead to VCP4 certification.

### VMware vSphere: What's New [v4] (HG805S)

This hands-on training course explores new features in VMware vCenter Server 4 and ESX/ESXi 4 as well as how to upgrade to VMware vSphere [4].

### VMware vSphere: Instal, Configure, Manage [v4] (HH633S)

This 5 day hands-on training course explores installation, configuration and management of VMware vSphere, which consists of VMware ESXi/ESX and VMware vCenter Server. Upon completion of this course, you can take the examination to become a VMware Certified Professional (VCP4). The course is based on ESXi 4.x, ESX 4.x and vCenter Server 4.x.

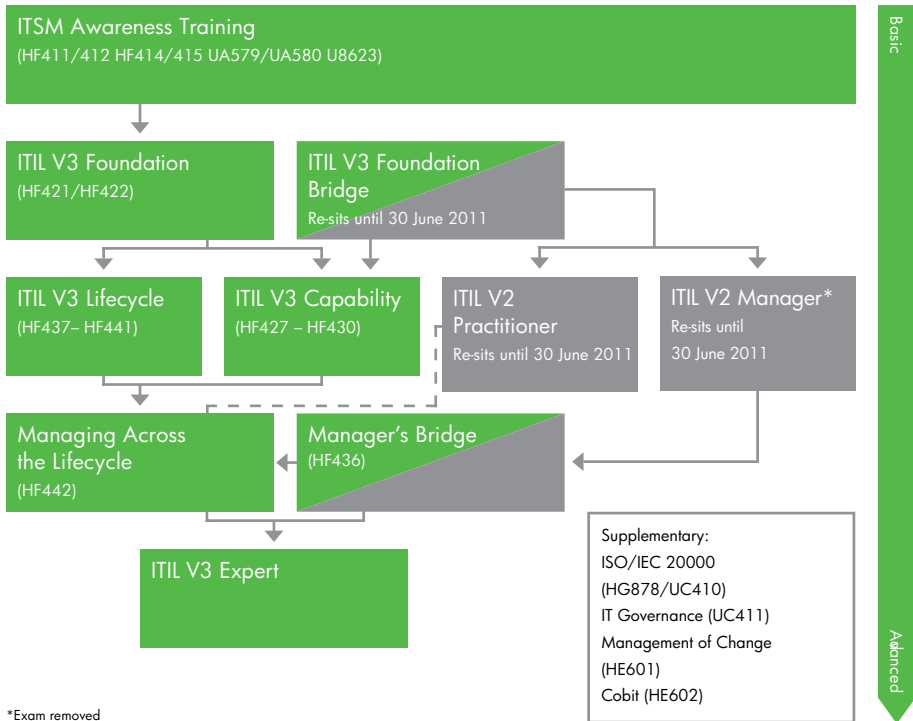

### VMware vSphere: Troubleshooting (HH642S)

This lab-intensive course focuses on providing system administrators with the advanced knowledge, skills and abilities to achieve competence in troubleshooting the VMware vSphere™ virtual infrastructure. In this course, you will spend most of the time diagnosing and rectifying configuration problems created on VMware® ESX™/ESXi hosts and VMware vCenter™ Server systems. This course is 25 percent lecture and 75 percent hands-on labs.

### VMware: View

HP offers a full suite of current VMware View courses – so whether you need training on VMware View Manager, VMware View Composer and/or VMware ThinApp, HP will satisfy your needs.

# HP ITSM Curriculum for all Skill Levels

For full course selection and course schedules, please visit [www.hp.dk/uddannelse/itsm](http://www.hp.dk/uddannelse/itsm)

## ITIL V3 Awareness

HP's ITIL Awareness courses for ITIL V3 include ITIL for executives, ITIL Service Management Awareness and HP Race to Results Service Management Simulation, which are available in one-day or half-day sessions. These courses provide a brief introduction and general overview of ITIL, and – depending on the chosen course – include basic outline, justification, benefits and best practices.

## ITIL V3 Foundation

ITIL V3 Foundation introduces the concepts of IT Service Management based on Version 3, including the lifecycle modules and are available with exam options. ITIL V3 Foundation also offers the opportunity to learn ITSM concepts via an exciting and interactive Race to Results Service Management Simulation.

## ITIL V3 Lifecycle & Capability streams

The ITIL V3 Intermediate training and qualifications have been introduced to replace the existing ITIL V2 Manager's and Practitioner level qualifications. There are two primary streams which students can choose from – the 'Lifecycle' and the 'Capability' streams – but they are also able to 'mix and match' by picking up sufficient credits from both streams (duplicates are not allowed).

## ITIL V3 Lifecycle – 3-day courses with exam

The Lifecycle stream is aimed at a 'Managerial and Supervisory' level staff and roughly replaces the V2 Manager level qualification. ITIL Lifecycle courses cover different components, including Service Strategy, Service Design, Service Transition, Service Operation and Continual Service Improvement. The fundamental aspects of communication and stakeholder management are also covered during the sessions.

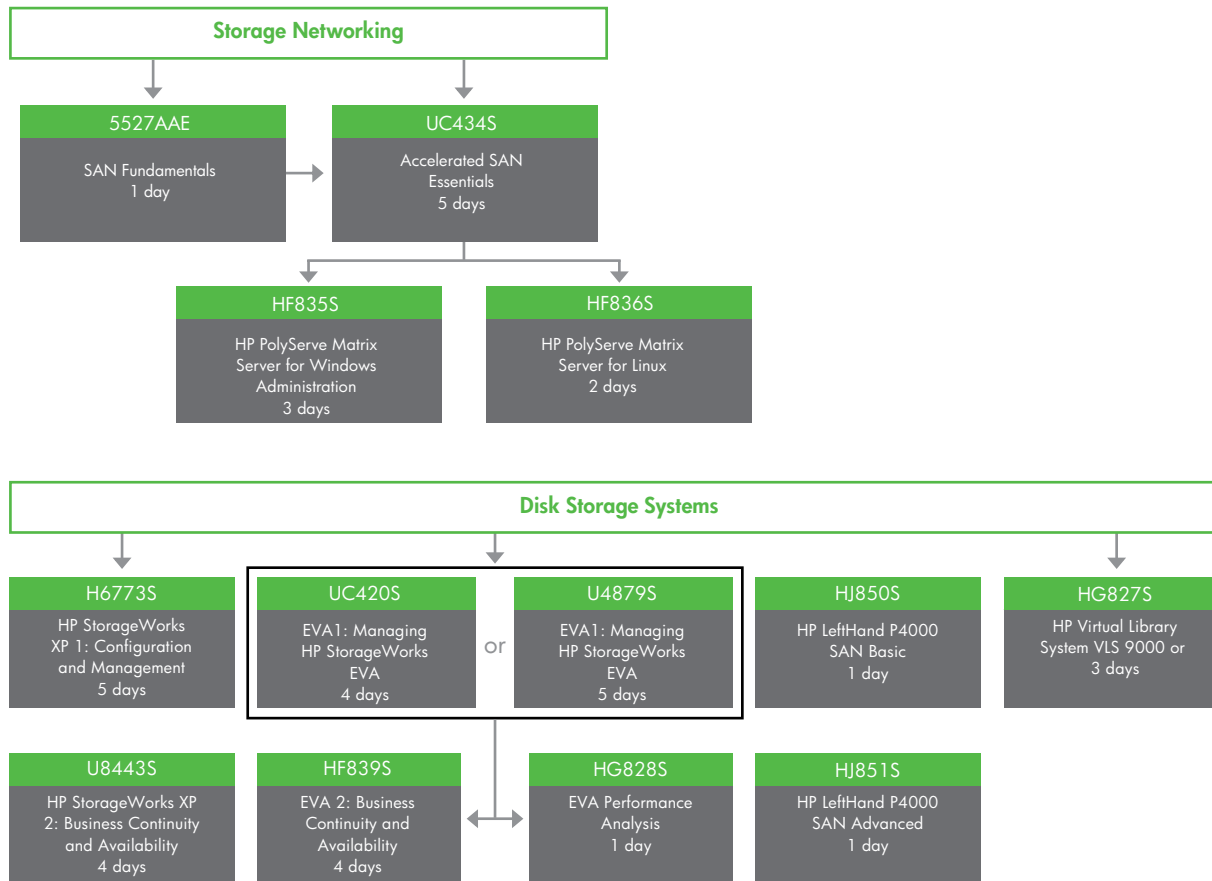

## ITIL V3 Capability – 5-day courses with exam

The Capability stream is aimed at practitioners and includes four modules with process-sets that align to the real-world responsibilities of many ITSM teams/jobholders. ITIL Capability courses provide in-depth coverage of the ITIL V3 areas of Operational Support and Analysis, Release, Control and Validation, Planning, Protection and Optimisation, and Service Offerings and Agreements.

## ITIL V3 Expert

To attain the Expert level, ITIL V3 Manager's Bridge and/or ITIL V3 Managing Across the Lifecycle courses have to be taken. The Manager's Bridge provides a management level update on ITIL V3 for existing ITIL V2 Service Managers to attain their ITIL Expert certification. The purpose of the ITIL V3 Managing Across the Lifecycle course is to impart and test knowledge across the contents of the five ITIL V3 books, focusing on business, management and supervisory objectives, purpose, processes, functions and activities.

## HP StorageWorks Curriculum

For full course selection and course schedules, please visit [www.hp.dk/uddannelse/storage](http://www.hp.dk/uddannelse/storage)

HP Education Services provide training on storage networking and disk storage systems, to enable customers to get the most out of their HP storage investment.

- Storage networking:** Students learn the key aspects of SAN architectures along with the HP technologies implemented in typical business environments. In conjunction with the knowledge and skills that are needed to instal and configure internet Small Computer System Interface (iSCSI) storage networks, students will learn to instal, analyse and configure fibre channel environments involving HP StorageWorks fibre channel switches. Classes are available in NAS architectures and technologies including HP StorageWorks PolyServe Matrix and Scalable NAS4400 management and administration. In-depth labs allow for the building of both simple and complex configurations.
- HP disk storage systems:** Our courses will help students gain a good understanding of the configuration and management of the Enterprise Virtual Array, XP Array and HP LeftHand SANs. Advanced courses build on introductory training and hands-on experience with in-depth training on Business Continuity and Availability technologies for HP disk storage systems. Students can also learn where virtual library systems fit into a modern data protection strategy.

## Velkommen

Uanset hvor dygtige medarbejderne er i din IT-afdeling, så har de brug for grundig træning, når det gælder ny hardware eller nye operativsystemer, applikationer eller processer. Dine slutbrugere skal også lære, hvordan man bruger de nye applikationer, uden at det virker frustrerende eller sænker produktiviteten. HP Education Services leverer træningen og det værktøj, der skal til, for at du og dine medarbejdere kan få mest muligt ud af virksomhedens teknologi.

Hvad enten man er ny inden for et produkt eller en erfaren bruger, har vi kurserne til præcis det hardware- eller softwareprodukt, du ønsker at uddanne dig i. Vi kan tilbyde både åbne og lukkede kurser og planlægger gerne kursusforløb efter dine behov.

### Brugertilpassede løsninger

Vi kan tilpasse vores uddannelsesprogram, så det opfylder netop din virksomhed og dine indlæringskrav. Vi tilbyder også strategisk rådgivning og planlægning, så du kan optimere udbyttet af dine investeringer i medarbejdere og infrastruktur.

### Tekniske kurser

HP tilbyder tekniske kurser inden for bl.a.:

- Storage, P4000 SAN og Storage Area Networks (SANs)
- HP-UX, HP Nonstop, OpenVMS og Linux
- HP Insight Control Suite for HP ProLiant og HP BladeSystem
- VMware, HP Netværk, Printer kurser (DesignJet, MFP) samt HPCP uddannelse

### Ikke-tekniske kurser

HP tilbyder 'bløde' kurser inden for IT Service Management (ITIL), PRINCE2 og E-learning.

### IT Resource Center

IT Resource Center giver adgang til web-baserede kurser, instruktørbaserede kurser og on-line seminarer med individuelt tempo. Derudover har brugere adgang til tekniske eksperter, informationsbiblioteker, diskussionsgrupper og HPs elektroniske supportcenter. HPs IT Resource Center afholder kurser inden for bl.a. HP StorageWorks, HP-UX, ITIL/ITSM, OpenVMS og VMware.

Besøg IT Resource Center på:

[www.itresourcecenter.hp.com](http://www.itresourcecenter.hp.com)

### HP Virtual Classroom

HPs virtuelle klasseværelse stiller et webbaseret møderum til rådighed, hvor effektive og interaktive online aktiviteter af enhver type kan afholdes – uden rejseomkostninger! For virksomheden betyder det minimal planlægning, færre omkostninger og mindre tid væk fra kontoret. Du, dine medarbejdere, partnere eller kunder kan deltage på møderne direkte fra jeres pc'ere.

Stor fleksibilitet gør det muligt at konfigurere møderummet med bl.a. logo, og der kan gemmes en masse forskellige præsentationer og andet materiale i rummet. Dette giver dig nemt adgang til lige nøjagtigt det, du skal bruge til et møde.

Vil du vide mere om HPs Virtual Classroom, kan du kontakte os [dkkursus@hp.com](mailto:dkkursus@hp.com) på [www.e-learning.hp.com](http://www.e-learning.hp.com)

### HP Care Pack Total Education Services – når du vil have det optimale ud af dit udstyr

Denne fleksible købsmulighed er cost effektiv, og gør det nemt for dig, at få det meste ud af HP Education Services. HP Care Packs kan bruges til at købe skedulerede kurser, online kurser via HP IT Resource Center eller firmatilrettede kurser.

HP Care Pack Total Education hjælper dig med at planlægge og budgettere uddannelse i organisationen – og sørger for, at det rette kursus leveres til den rette medarbejder, på det rette tidspunkt. Den eneste beslutning, der skal tages, er hvor meget uddannelse I har brug for i de kommende 12 måneder.

Alt efter hvor meget du investerer i uddannelse, opnår du forskellig bonus på din HP Care Pack account. Hvis du f.eks. binder dig for DKK 200.000 vil du kunne købe uddannelse til en værdi af DKK 240.000.

HP Care Pack Total Education skal bruges inden for en periode på 12 måneder efter købet. Den kan ikke kombineres med andre rabatter, og kan ikke benyttes til HP Software kurser.

PriceTier	Bonus Level
DKK 80.000 - 160.000	10%
DKK 160.001 - 270.000	20%
> DKK 270.000	plus 25%

## Nyheder

**Nu også HPCP kurser** – HP Education Services leverer HPCP kurser inden for bl.a. Storage, HP Netværk, Print og ProLiant. Kurserne afholdes på APS, AIS og ASE niveau.

Kontakt os for yderligere information.

**PRINCE2 Foundation & Practitioner** kurserne afholdes i samarbejde med SPOCE.DK, og leveres både på Sjælland og i Jylland.

**HP Netværk - Migrating to H3C/3COM - Routing and Switching** - denne 4-dages uddannelse, underviser kursisterne i de nødvendige færdigheder til at migrere fra et Cisco routing/switch miljø til et 3Com routing/switch miljø, hvor du vil opleve de langsigtede fordele af 3Com's ikke-proprietære implementeringer. Kursisterne vil bruge deres eksisterende teoretiske WAN/LAN viden til diverse hands-on øvelser. Af kursus emner kan nævnes: funktioner og muligheder i 3Com routing og switching produkter, konkurrence fordele mellem 3Com og Cisco produkt i mellem og forskellene mellem 3Com og Cisco routing og switching implementeringer.

**HP StorageWorks X9000 File Serving Software System Administration** - This 3 day course trains system administrators to configure, manage and monitor an X9000 File Serving Software Solution. This lecture and lab course teaches students how to successfully configure the components of an X9000 file system, monitor file system activities, and perform basic problem-solving and information-gathering tasks.

Kontakt os for yderligere information.

**EVA Performance Analysis** - This 2-day course covers EVA performance data collection, interpretation and analysis,

including a hands-on case study. The course describes essential performance rules, terminology, and rules of thumb that should be used when assessing EVA performance. It covers the tools and processes used to collect, format, and analyse performance data. Kontakt os for yderligere information.

**HP P4000 SAN (tidligere LeftHand)** – HP StorageWorks P4000 SAN Configuration and Administration - This course begins with the information required to understand, manage, and configure your HP StorageWorks P4000 SAN. This training covers topics such as HP SAN/iQ® Software features and functionality, configuration, iSCSI protocol, as well as HP SAN/iQ Software in several popular application environments such as Microsoft SQL, Microsoft Exchange, and Oracle. The training also covers best practices for HP

P4000 SAN – based on field experiences and applied industry knowledge, such as installation and configuration of HP SAN/iQ Software, use and verification of iSCSI Initiators, and MPIO.

Kontakt os for yderligere information.

### **Kurstilmelding og bekræftelse**

Tilmelding til vores kurser skal ske via [www.hp.dk/uddannelse](http://www.hp.dk/uddannelse) under de enkelte kurser. Har du brug for vejledning, er du velkommen til at kontakte os på **4812 1000**.

Efter tilmelding vil kursusedtageren modtage en bekræftelse inden 3 arbejdsdage via e-mail. Hvis bekræftelsen ikke er modtaget inden 3 dage, bedes deltageren kontakte HP på telefon **4812 1000**

### **Tilmeld dig vores nyhedsmail!**

Ønsker du at modtage en Nyhedsmail fra os ca. 1 gang om måneden samt information om gode tilbud og specielle kurser, der ikke nødvendigvis bliver annonceret på vores website, så send dine kontaktinfo til [dkkursus@hp.com](mailto:dkkursus@hp.com)
